TABLE OF CONTENTS

I. The Problem and Its Background
- 1.1 Introduction
- 1.2 Problem Statement
- 1.3 Objective of the Study
  - 1.3.1 General Objectives
  - 1.3.2 Specific Objectives
- 1.4 System Description

II. Review of Related Literature and Studies

III. Research Design
- 3.1 System Flowchart
- 3.2 System UI Design

IV. Result and Conclusion

V. References

VI. Appendices

DOCUMENT FORMAT (this part is for reference only.)

Font: Times New Roman

Size: 12

Alignment: Justify

Spacing: 1.5

I. The Problem and Its Background

1.1 Introduction

Provide a brief overview of your system.

1.2 Problem Statement

State the problem clearly in one or two sentences. This should be specific and measurable.

1.3 Objective of the Study

1.3.1 General Objectives

Broad goals of the project.

1.3.2 Specific Objectives

Concrete, actionable goals.

1.4 System Description

Provide a short overview of what your system will do, its main features, and how it addresses the problem.

II. Review of Related Literature and Studies

Summarize existing research, systems, or tools related to your project should be 10 years old. Show what has been done before and how your project is different or builds upon it.

III. Research Design

3.1 System Flowchart

Present a diagram showing how the system works step by step.

3.2 System UI Design

Show a prototype or wireframe of your interface. Explain why the design is user-friendly and effective.

IV. Result and Conclusion

Summarize what your project achieved. Highlight whether objectives were met and what improvements were observed.

V. References

List all sources cited in the document.

APA format (Smith, J. A. (2020, July 10). Title of the webpage. Site Name. URL)

VI. Appendices

Each member of the group must attach a copy of their valid exam permit for the current semester. This serves as proof of enrollment and eligibility to submit the project.
